VTM-200

Brand: Okuma Australia

Product Code: VTM#200

Availability: In Stock

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Short Description

The VTM-200 three-axis vertical turning center combines the benefits of a vertical lathe with those of a machining center.

Description

The VTM-200 three-axis vertical turning center combines the benefits of a vertical lathe with those of a machining center. The 50 taper 36-tool magazine enables this machine to offer both turning and milling operations on a single platform. It is the ideal machine for efficient low volume parts production, including valve bodies and work that requires heavy milling. The box way construction and wide, angular slideways on each axis provide high rigidity for accurate machining. A vertical axis counterbalance assures smooth, stable feed at all speeds. The headstock is fixed to the base, minimizing the influence of thermal changes and vibration on cutting accuracy. In addition, the VTM-200 is available with a wide range of standard accessories, including a spindle

orientation function.

Specification

MODEL	UNIT	VTM-200
Max Work Length	mm	1200
Max Tuning Dia	? mm	2000
Spindle Speed	min-1	250
Tool Storage	tools	36, 60, 120
Motor (VAC)	kW	30/22
Floor Space	mm	5557x5251
