## V760EX

**Brand:** Okuma Australia

**Product Code:** V#760EX

**Availability:** In Stock

**Weight:** 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

### Short Description

The V760EX vertical lathe increases productivity by providing stable machining of thin and odd-shaped workpieces.

### Description

The V760EX vertical lathe increases productivity by providing stable machining of thin and odd-shaped workpieces. With a max turning diameter of 29.92 inches and max turning height of 30.31 inches, this machine is capable of performing powerful, heavy-duty cuts, while the vertical orientation is the ideal platform for running thin-walled parts without distortion. The milling (M) function adds flexibility to handle a wide range of parts. The box-type base and column make a highly dependable, highly rigid structure and the headstock with flange construction minimizes the effects of thermal deformation and vibration - ensuring stable accurate cutting. The base is designed for smooth chip flow, and the optional chip conveyor can be placed for side or rear disposal to meet shop

requirements. The ergonomical design includes easy access to the chuck and a front-skirt operation panel convenient for up-close jobs in addition to the swiveling pendant operation panel.

## Specification

MODEL	UNIT	V760EX
Max Work Length	mm	770
Max Turning Dia	φ mm	760
Spindle Speed	min-1	20 to 2,000
Turret		V12, M-V12
Motor (VAC)	kW	30/22 (30 min/cont)
Floor Space	mm	1,842x2x732
Available CNC		Okuma OSP, Fanuc
